

COMPACT, LIGHT-WEIGHT AND RELIABLE

THE PALM SERIES

LAB-TESTED PERFORMANCE

Famous for its comfort and size, the PALM is every backpacker's dream sleeping bag...

Focused on achieving ultra-lightweight performance, the Palm uses a combination of high quality materials, fill and insulation technology - Insufil Thermo and Thermaspace Micro has been combined to provide the maximum temperature to weight ratio, while lightweight durable fabrics reduce weight and provide a soft touch comfort you will only find in a high-quality product. The Palm Series is lightweight and compact, perfect for use when travelling, camping, trekking or any use where size matters. Tested to EN standards to ensure performance and comfort (Excluding Palm Lite).

- ✓ Light-weight
- ✓ Compact
- ✓ High Quality
- ✓ EN TESTED to guarantee correct temperature coverage

*Palm Lite

thermaspace

- » Breathable and lightweight
- » Advanced insulation technology
- » Reflects body heat inside the bag to prevent heat loss

thermaspace® is carefully positioned between the inner fill and the outer shell to insulate the user, to prevent heat loss and attain and maintain desired warmth rating.
