

PACK CARE

Osprey recommends Nikwax™ products for pack care. For complete instructions on cleaning your pack, visit : www.ospreypacks.com/PackTech/PackCare

Your pack is an extremely durable product built for years of use and abuse. However, some basic procedures will ensure that your pack holds up optimally.

- After each trip be sure to clean out your pack thoroughly.
- If it's wet, hang it to dry.
- Loosen all the straps.
- Wash your pack every now and then. (Do not immerse travel packs with our High Road™ Wheeled Chassis.)

PACK YOUR PACK

Loading your pack correctly optimizes comfort while you are carrying it. For complete information visit: www.ospreypacks.com/PackTech/HowToPackYourPack

GUARANTEE

At Osprey, sustainability is designed into our packs, which are built to last a lifetime and backed by a superb guarantee, no matter how hard you are on your gear. Visit www.ospreypacks.com for details.

*Maximum legal carry-on size
Porter 65/46 available in select markets only

SHARED FEATURES

Porter StraightJacket™ Compression

The Porter utilizes foam sidewalls in our StraightJacket™ compression system. The sidewalls securely compress the contents of the pack and assist in transferring weight to the hipbelt, regardless of load size. When the pack is more than 2/3 full, the compression straps buckle across the front of the pack. For smaller loads connect the straps to the two female buckles **A** at the edge of the backpanel and cinch to compress. Strap keeper clips on the compression straps assist with excess strap management.

Porter Hipbelt/Harness Use

At the top of the Porter backpanel find a zippered panel containing the pack's harness; at the bottom find two hipbelt wing slots. To engage for backpack-style carry, **A** unzip the back panel and free the harness. **B** Clip the male portion of the buckle on the harness into the female portion of the buckle on either side of the top carry handle. Adjust the load lifter straps to your personal preference once the Porter is on your back. **C** Remove the hipbelt wings from their slots and clip the male buckle on the harness into the female buckle at the top edge of the fabric wing hipbelt. Reverse to stow.

OSPREY ADDONS™

Customize and protect your pack with Osprey's full line of AddOns.™ For the full lineup, please visit your local Osprey retailer or visit our web site www.ospreypacks.com.

Shared Features

Transporter Main Access

Dual lockable zippers and wide mouth opening with hook-and-loop closure grant easy access to secure contents.

Transporter External Pocket

A large, single zippered end pocket provides easy access storage options. The harness pocket on the three larger Transporter packs doubles as an additional end pocket when the harness is not in use.

Note: When the harness is not engaged, its stow pocket serves as an additional zippered side pocket. Pocket will not zip with harness engaged.

Compression Wrap Straps

Dual external compression wrap straps with integrated strap keepers compress and secure loads.

Reinforced Base

A padded, 420D Nylon Pack Cloth bottom provides a durable contact point and assists in the protection of contents.

Unique Features

95L / 75L / 60L

QuickCarry™ Harness

Each Transporter 95L, 75L and 60L feature QuickCarry™ models shoulder strap attachments providing optional backpack style carry. To engage, **A** locate the side zippered pocket containing the QuickCarry™ harness and remove. **B** Clip male buckle located at the end of the nylon harness webbing into the female buckle located at either end of the opposite side's grab handle. **C** Tension both ends of nylon webbing harness equally. Reverse process to detach.

46L Removable Shoulder Strap

In the end pocket of the Transporter 46 you will find an optional nylon shoulder strap. To engage, remove strap from external pocket and clip to attachment tabs **A** located at opposing corners on the top of the bag. **B** Adjust length as needed using integrated slider buckle. Reverse process to detach.
